title: Issue regarding alleged death of children due to malnutrition in Odisha.

SHRI TATHAGATA SATPATHY (DHENKANAL): Thank you, Sir, for giving me this opportunity. In Sukinda area of Odisha, Jajpur district, there is a small little hamlet Taktua amongst the hillocks called Nagada. Recently, a Central Health Team had gone and inspected the health conditions there primarily because some 16 *juang adivasi* children died supposedly due to malnutrition.

The interesting fact, Sir, that I would like to draw the Government's attention through you is that the Central Team did not share the Report with the State Government although the State Government had given it all the support it required. In a Press Conference the Central Team met the Media at Bhubaneswar and praised the efforts of the State Government. Yet, they were instructed from Delhi by phone not to share the Report and to politicize the issue. It has been a bad effort on the part of the Central Government, at the behest of political bosses to vitiate the atmosphere.â€¦ (*Interruptions*) Sir, I want, through you, ...(*Interruptions*)
